Examiner Kinhead:

The references cited on attached forms are being provided for consideration. The title page of the non-patent references accompany this transmission, and the complete paper copies are being mailed to your attention. The listing includes those patent references cited in an International Search Report issued for the counterpart PCT patent application, a copy of which is also attached. It is respectfully requested that all cited references be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue from this application.

No inference should be made that the information and references cited are "prior art" as defined in 35 USC §§ 102 or 103, and the Applicant reserves the right to establish that any of the cited references are not "prior art." No representation is being made that a search has been conducted, or that this statement encompasses all the possible relevant information.

The Applicant believes that no fee is required for submission of this statement,
